Hi there,

Les is thinking on our concerns (after my apologies), understands them and is hoping to come up with a compromise, while concurrently proceeding at mach speed to create the entity agreed to.

He is also planning on calling you and explaining his behavior. I told him that you hadn't taken any of it personally and you were simply focused on doing "whatever it takes" to create a vibrant WSFM. But he worries still. Just wants a super peaceful community and a fountain on the corner of Manchester & Lincoln and the Council office exterior not to look like a dog's breakfast.

Off to start shopping and cooking!
